## EDUCATION

---

### Georgia Institute of Technology, Atlanta, GA

*Candidate for Bachelor of Science in Computer Science*

*August 2016 - Present*

Expected Graduation: Fall 2019

- GPA: 3.97/4.00
- Concentration in Artificial Intelligence and Information Internetworks
- Relevant Coursework: Computer Organization & Programming (Spring '18), Intro to AI (Spring '18), Data Structures and Algorithms (Fall '17), Objects and Design (Fall '17), Intro to Discrete Math (Fall '17), Intro to Object-Oriented Programming (Spring '17)

## WORK EXPERIENCE

---

### Tech Behind the Magic Experience

*October 2017 – October 2017*

*The Walt Disney Company, Orlando, FL*

- Received an exclusive sneak peek at the innovative technology used at Disney and networked with executives
- Selected as 1 of 20 students to participate in the program out of a nationwide pool of 800 applicants

### Software Engineer Intern

*May 2017 - August 2017*

*The Home Depot, Atlanta, GA*

- Developed a pricing visibility tool for users to view retail information in one consolidated system
- Integrated relevant data from several web APIs, reducing price validation time by 80%
- Implemented using HTML, CSS, TypeScript, and an Angular 2 framework

### Undergraduate Researcher

*January 2017 - Present*

*Vertically Integrated Projects Program, Atlanta, GA*

- Improve transportation systems by reading and interpreting data from GPS devices already on buses
- Refine and deploy Tableau dashboard so that GT Transportation can evaluate the performance of the buses

## LEADERSHIP

---

### Education Leadership Team, CS + Social Good

*August 2017 - Present*

- Empower the next generation of middle school students with basic and advanced computer science skills
- Design a unique curriculum that promotes innovative ways to use technology for social good

### VP of Internal Affairs, Epic Intentions

*January 2017 - December 2017*

- Recruited new members by creating flyers, tabling at freshmen orientation, and advertising on social media
- Organized a “workathon” to encourage members to start working on their projects early
- Facilitate communication between the members and team leaders to ensure project milestones are being met

## PERSONAL PROJECTS

---

### GT Credits (Angular 2, HTML, CSS, TypeScript)

*Summer 2017*

- Developed a tool for incoming freshmen that converts AP, IB, and SAT exam scores to institutional credits

### LEAADS Project (Python, CSS, HTML)

*Spring 2017*

- Built a website for LEAADS, which is a law enforcement agency that assists in the development of students
- Developed a SQL database for storing relevant information and designed the Admin view

## SKILLS

---
